

**1. What is the story behind you wanting to open your shop?**

**I've always wanted to open a shop, & I thought if I didn't do it now it'd regret it, & life should be no regrets.**

**2. How have you found your first few weeks of trading?**

**Very enjoyable, I absolutely love it. Everyday it's a pleasure to go to work, meet people & have a chat, plus all ready we have our 'regulars' – It's nice to see people come in, & support a local shop.**

**3. Of the many products you sell which seems to be the most popular?**

**The Happy Yellow Ball – great for young children learning how to catch a ball plus the children take them into school as they're allowed soft balls. Also these are good as stress relievers, & for those who suffer from arthritis or limited mobility in their hands. Stretch Aliens – One of our most popular 'pocket money' toys, they come in a variety of colours, & as well as being able to stretch them they apparently stick well to ceilings & stay up there for a very long time!! lol. Toilet rolls, kitchen rolls we sell a lot of those. Also plastic storage boxes – Lots of tidy people in Soham living clutter free lives!!**

**4. What, for you has been the most rewarding experience so far?**

**Finally finishing using the pricing gun – I think we all nearly ended up with RSI after a weekend of frantically getting the shop ready to open on the Monday.**

**5. As a retailer, what other shops would you like to see?**

**Anything except takeaways, I think Soham has enough of those now!!**

**6. What are your hopes or future plans?**

**World domination – Today Soham tomorrow the world...**

**Mwahahahahahahaaaa. \*Laughs evilly\* ;-)** Seriously! I'd like to trade in Soham as long as I can, I like living here! I may not always like the way the town is changing; sometimes the changes are not for the best, but so far it's still retaining its sense of community, & is a delightful place to live, & work in.
